

Lulu Lewe, Crush On You

Watch you striving down the alley
with some ah the girl named Shelly
I'm looking hot but you don't have an eye for me

How i wish that you would see me
try to call attention to me
feel so dumb cause you don't read my signs,baby

Everytime i think of you
Everytime i'm feeling blue
You're the only one for me
Boy i wish you knew

I've got a crush on you (crush crush)
I've got this feeling
sick and tired of willing and dealing (crush crush)
He set my heart on fire ohoo

I've got a crush on you (crush crush)
I feel so dizzy
Oh boy everytime you're near me (crush crush)
and i think that your sweet kisses overdo
I've got a crush on you

Then you walk upright beside me
I'm uptight why can't you see me
Raise my eyes and there you smile at me, oh boy

With the glass i show you clearly
My body talks and then you read me
finally you walk right trough my door,baby

Everytime i think of you
everytime the sky is blue
you're the only one for me
oh boy it's clear to see

I've got a crush on you (crush crush)
I've got this feeling
sick and tired of willing and dealing (crush crush)
He set my heart on fire ohoo

I've got a crush on you (crush crush)
I feel so dizzy
Oh boy everytime you're near me (crush crush)
and i think that your sweet kisses overdo
I've got a crush on you

What is on the street
it says you want me too
So baby come and show me
that the word is true
I can't eat, i can't sleep
I just feel for you
I'm in love ohh so deep boy

I've got a crush on you (crush crush)
I've got this feeling
sick and tired of willing and dealing (crush crush)
He set my heart on fire ohoo

I've got a crush on you (crush crush)
I feel so dizzy
Oh boy everytime you're near me (crush crush)

and i think that your sweet kisses overdo
I've got a crush on you (crush crush)
