

Lumidee, Break Away

I had to break away from you
And try to get use to me
Being alone is so brand new
I never felt so free (In life I love)
The fact that cha know
(Loger thought of)
It's honestly, open a book of pictures there
Of us when times were fair
Happiness was always so scared
To reach us in our pair
(You left me there)
Going nowhere, pain I was aware
Cause it's you that had me there

[Chorus:2x]

I've mad up my mind, so let me go
I jus wanna let you know
This time I know that it's for real
I know in my heart that's how I feel

I can't believe how you had me
So confused and weak
I'm only strong, I can't go on
To understand my needs
It's only in your dreams
Me and you, could ever be
It's honesty, half the time I was blind
And I just could not see
All the damage that you did
You did do to me
(I held it on)
It's relief
(I was my own, my own defeat)

[Chorus: x2]

I'm gone, you need to just move on
How could you not see, we weren't meant to be
I'm gone, you need to just move on
You and me, no more, I'm sorry, it's over

[Chorus: x2]

I'm gone

[Talking after music stops]

since i was in debris
felt i was an evil seed
feeding me
a drug and liquor scene
was defeating me
reaching me
imprisonated by a vicious mentality
not escaping me
breaking me
i see exactly what's taking me
firewater's holding me
not a living thing controlling me
don't even have a broken dream
you look at me on notice
please
understand the road i lead
my breaths of life don't wanna breathe

because i feel i won't succeed...
