## Luna Halo, Bitter Sweet

Blood, sweat, and tears Hunger, thirst, and pain For you I'd go through everything You're the reason why I would walk through fire And everything behind my dark desire

So I give and you take And forget the heart you break You're bittersweet

There's no other way
That's how it has to be
Me with you, and you with me
No I won't have less
You should know by now
I'm gonna get you somehow

So I give and you take And forget the heart you break And I fall at your feet My obsessive memory You're bittersweet

My heart is screaming Are you listening? I'm gonna make you mine, in time

So I give and you take And forget the heart you break And I fall at your feet My obsessive memory You're bittersweet You're bittersweet (3x)
