

Luna Halo, New Drug

You're the cause of friction
You're my sweet addiction, oh, oh
I could never shake you
I think they know when they see my eyes

And I feel you messing with my brain
And I feel your poison in my veins, Yeah! Yeah!

I want a new drug
One that won't kill me
I want a new drug
So I can break free

It's a thing about you
I can't live without you, oh, oh
And I'll never be free
'Cause you can't forget me

And I feel you driving me insane
And I feel you checking with my brain, Yeah! Yeah!

I want a new drug
One that won't kill me
I want a new drug
So I can break free
