

# Lunachicks, Shut You Out

I hate the way you talk  
I hate the way you say you hate the ways that I say I hate you  
I hate it when you speak  
You're talking down to all the world again  
And you think it cool

I hate your fucking face  
You look ugly in this space  
I hate your freakin' out  
I hate you!

I hate your attitude  
Your pointing fingers in my face  
You know I really find it rude!  
I hate the way you think  
That it's okay for you to feed me your poison

Didin I didn't I didn't I didn't I didn't I didn't I already say  
I gonna shut you out  
Didin I didn't I didn't I didn't I didn't I didn't I already say

I gonna shut you out  
Didn't I already say  
How many times have I got to say  
I gonna shut you off

Didin I didn't I didn't I didn't I didn't I didn't I already say  
I gonna shut you out  
Didin I didn't I didn't I didn't I didn't I didn't I already say  
I gonna shut you out  
Shut you off! Shut you out

I hate the way you judge  
I see the hateful affliction in your eyes  
I hate the way you preach  
To all the world with your self-inflicted lies

I hate your fuckin' house  
I hate that space between your brain and mouth  
I hate you

Didin I didn't I didn't I didn't I didn't I didn't I already say  
I gonna shut you out  
Didin I didn't I didn't I didn't I didn't I didn't I already say

I gonna shut you out  
Didn't I already say  
How many times have I got to say  
I gonna shut you off

Didin I didn't I didn't I didn't I didn't I didn't I already say  
I gonna shut you off  
Didin I didn't I didn't I didn't I didn't I didn't I already say  
I gonna shut you off  
Shut you out! Shut you off
