

Lunik, Care

Excuses are falling through my fingers like sand
Reasons vanished naked and embarrassed replaced by guilt
I used to curse the storm outside while letting it in
And now oh I feel it pulsing inside of me

I care about us yes I care about us
I care about us and I wish I would act like it

Long ago I thought I knew it - know me
I learned that I'm not who I'd like to be
I used to curse the storm outside while letting it in
And now oh I feel it pulsing inside of me

I care about us yes I care about us
I care about us and I wish I would act like it

When I lay awake all night long
You're far away and all is wrong
Suddenly it's all outta control
And I can't hide it anymore
I can't hide it anymore

I care about us
I'm willing to save us
I wanna keep us
And I wish I would act like it
I care about us
I'm willing to save us
I wanna keep us
And I wish I would act like it

The days are closing in and I cannot stop this sin
I'm acting like a fool n' start to forget about you
I know that ain't right, I argue and I fight
With the part of me inside but I don't know how to change
The days are closing in and I cannot stop this sin
I'm acting like a fool n' start to forget about you
I know that it ain't right, I argue and I fight
With the part of me inside but I don't know how to change
Don't know
Don't know how to change
