

Lunik, Try

You want me to be happy
So happy I am
I sing a song and you'll be amazed
And never miss it again
This same time it's a game
And I'll win because you don't see
That I'm playing with you

You think that bein' pensive
And melancholic's strange
It doesn't fit with all those others
Who love to imitate each other and
Sing of superficial happiness
Lies for you to understand

Just once I wanna try - to lie
And I promise I won't do it again
Just once I wanna try - to lie
So here is my song for you

Because once I wanna try

You want me to be happy
So happy I am
I sing a song and you'll be amazed
And never miss it again
This same time it's a game
And I'll win because you don't see
That I'm playing with you

'Cause once I wanna try - to lie
And I promise I won't do it again
Just once I wanna try - to lie
So here is my song for you

It needs a take off
To fly to the stars
To superficial paradise
So I do a take off
A take-off

"2 times:"
Because once I wanna try - to lie
And I promise won't do it again
Just once I wanna try - to lie
So here is my song for you

Because once I wanna try...
