

Luther Vandross, Hit It Again Ft. Latifah

Well by now you know Im insatiable
Cause when you step to leave I want a full repeat, yeah
Its a miracle, you were right inside my head
If the feelings nice, why not do it twice?
It is not against the law, no baby
I slave all through the week
And I need my release
I work hard so when I stop
I gotta get a little satisfaction for me
Hit it again
Dont care if Im late
The world just has to wait
Hit it again, hit it again, baby
Hit it again
I loved it the first time
Sent chills up through my spine
Hit it again, hit it again, baby
Deep emotion aint got nothing to do with it
And being in love aint really got a thing to do with it
I hope you understand
But I cant worry if you dont, oh no
If I cant double up
Its like I didnt get enough
Call me greedy if you want, just do it
But its something that will never change
I dont get no complaints
They know it when they ring my bell
That this could be a thing that could take a little while, well, well
Hit it again
Dont care if Im late
The world just has to wait
Hit it again, hit it again, baby
Hit it again
I loved it the first time
Sent chills up through my spine
Hit it again, hit it again, baby
I declare the point to be
Once is not enough for me
Two time lovin makes me smile
One time love just aint my style
Repeat the love and I have found
More the second time around
It builds me up I love to love
And if I cant hit it again
It aint natural
Hit it again
Dont care if Im late
The world just has to wait
Hit it again, hit it again, baby
Hit it again
I loved it the first time
Sent chills up through my spine
Hit it again, hit it again, baby
