

Luther Vandross, Little Miracles (Happen Everyday)

One thing I love, Love to do
Is talk to someone
Wish I knew who
Sometimes the people who know the least say the worst
Makes you wonder who you can trust
What's gonna happen

The first thing I learned
GOD is love
The next thing would be
HE loves me
Sometimes I tired of waiting
For a thing or someone
Then I stop and see what HE's done
And I know good things will come

Maybe today
Anything can change
No one knows for sure
Through it all come what may
Little miracles happen everyday

And so there you go
Strangely in love
Alone even though
Addicted to love
Your in and out so quickly
That it gives you a scar
Your waiting for a message or a word
But you haven't heard from your heart

Maybe today
Anything can change
Nothing stays the same
Maybe today
It's for the love we meet
I really believe
Through it all come what may
Little miracles happen everyday

What is a miracle
Love is a miracle
Everytime that you care
A miracle it happens somewhere
So many miracles
Even so little miracles
Just take one look around
It's not hard to figure out

Cause it might be to late
Anything can change
Nothing stays the same
Maybe today
What's tomorrow for
No one for sure
Through it all come what may
Little miracles happen everyday
