

Luther Vandross, Love Me Again

LOVE ME AGAIN

Luther Vandross and Marcus Miller
(album: NEVER LET ME GO - 1993)

What are we saying
For what are we praying
Using the words we both wanna hear

What are we doing
The whole thing is proving
We're feeling the same way we always did

So, here we go once again
It's just like back when
I clearly remember the way we were then
So come back and love me again

Chorus I:

I was the one who adored you
And I waited all this time for you
But, you can't tell love what to do
It's so hard, but it's true
You used to love me completely
And I'd really love you to need me
So darling, tell me you can find the way
Find a way to love me, again

I've heard the stories of hearts that get broken
But, if we take it slowly it won't have to be
One step at a time heart, too fast and it all'll fall apart
I know we're survivors, but I'll speak for me

Even as strong as I am
I don't think I can
Lost outside the world
I don't know just where I stand
So hurry back girl and love the boy, again

Chorus II:

I was the one who adored you
And I'd wait a million years for you
But, you can't tell love where to go
This is one thing that we know

You used to love me completely
And I'd really love you to need me
So darling, tell me you can find the way
Find a way to love me again

Repeat

(Find any way that you can, love me again)
Over and over, I swear, I need you, need you, need you girl
(Just think it over and then, love me again)
