

Luther Vandross, Think About You

So close to paradise, but closer than I should be
Its like Im along for the ride, it happened unexpectedly
Promised myself that I wouldnt ever love again
But you make me feel something, my minds always on you
I was standing in the rain (I thought about you)
I was riding on the train (I thought about you)
Feeling high like I seem to do
Every time I think about you
Saw two lovers start to kiss (I thought about you)
Had to hold back the tears (I thought about you)
Other girls no more exist
All because I think about you
Nothing seems to help, I dont even know myself
Im trying not to think of you, but a heart does what it wants to do
Pass you by, see you smile and I must admit I get
So emotional, I think Im falling for you
Bought a pillow for my room (I thought about you)
Heard Alicia sing a tune (I thought about you)
It sends my rocket to the moon
Every time I think about you
Right from this heart of mine (I thought about you)
I wanted you every time (I thought about you)
What I feel is so divine
And its all because I think about you
But Im constantly reminded
Reminded that youre only someone who Id like to know
You dont know me, youre my private fantasy
Youre with me, constantly in my mind
Had a lovely day today (I thought about you)
Wasnt hard to get through (I thought about you)
Seems to happen easily
Every time I think about you
Took a walk with myself (I thought about you)
Wish it couldve been with you (I thought about you)
But every star in the sky came out for me
And its all because I think about you
