

Lutricia Mc Neal, Do's Me Good

(mcneal/jay g/papalexis/larossi/benn/yacoub)

What you do's, it do's me baby, do's me good now
What you do's to me, it do's me good
You're the kind of guy I've been looking for
You treat me good and I just wan't more
What you do's to me, it do's me good
You treat me like a lady
You make me feel nice
A candellight dinner, pink champagne on ice
What you do's to me, it do's me good
What you do's, it do's me baby, do's me good now

What you do's to me, it do's me good
When the weekend comes,
I wanna be with you
Let's hit the highway
Who knows where we might go
What you do's to me, it do's me good
A nice hotel with a view
What's on my mind is being with you
What you do's to me, it do's me good
What you do's, it do's me baby, do's me good now
What you do's to me, it do's me good
