

Lutricia McNeal, Fly Away

When you're not here
Why is that I feel you ?
This empty room,
Memories always
Lingering through
I know you're without me
But are you alone ?
Light up a candle
And turn off the phone
I've been without you
For so long
But now I'm coming home
If I could fly away from here
The I would find my way
To get back to you
If I could fly away from here
I would make it right tonight
If only you were here
Since you've been gone
I've been running
Around on my own
There's no way to know
If you're doing me right
Or if your doing me wrong
I know you're without me
But are you alone ?
Light up a candle
And turn off the phone
I've been without you
For so long
But now I'm coming home
If I could fly away from here
The I would find my way
To get back to you
If I could fly away from here
I would make it right tonight
If only you were here
