

Lydia Denker, One Perfect Day

I feel you breathing inside me, for I know
When you are far, you're ever near.
Don't hear my words, feel my heartbeat.
How could our song disappear?

And how could I be anything else but yours?

CHORUS

Here in my heart, is a dream for you.
One perfect day, you will see it too.
My lost angel, I'll carry you there.
Together, we'll always be there.

Ooh...

Over-desire has left me,
I do not want anymore.

And time and space can never keep us apart.

CHORUS

(Always be near)
Ooh...

Breathe together,
Breathe forever.
Breathe together,
Breathe forever...ooh...ooh...

CHORUS

My lost angel, I'll carry you there
Together we'll always be there
My lost angel, I'll carry you there
Together (Breathe forever) we'll always be there.
