Lykke Li, Just Like A Dream

I'm letting you go I'm setting you free I no longer love Head over heels

Morning will come My heart will break So before you replace me Lie with me one last time

Just like a dream
Oh come, come back to me
And I'll still believe
If you stay baby, stay with me
Darling I beg, come back to me
Just like a dream

Before you forget Was I ever real Before you forgive me darling For love I can't feel Before I replace you Lie with me one last time

Just like a dream
Oh come, come back to me
And I'll still believe
If you stay baby, stay with me
Darling I beg, come back to me
Just like a dream

You're making my heart bleed honey Don't ever forget me honey

Just like a dream
Oh come, come back to me
And I'll still believe
If you stay baby, stay with me
Darling I beg, come back to me
Just like a dream

Just like a dream
Oh come, come back to me
And I'll still believe
If you stay baby, stay with me
Darling I beg, come back to me
Just like a dream
