

Lykke Li, Melodies & Desires

Follow these instructions

Do exactly as I do

Lean your shoulders forward

Let your hands slide over to my side

Move your body closer

Let your heart meet mine

Love is the harmony

Desire is the key

Love is the melody

Now sing it with me

Come a little closer

Take a look at me

This light is so obvious

I want you to see

Come a little closer

Look me in the eye

Then repeat with me one more time

Love is the harmony

Desire is the key

Love is a symphony

Now play it with me

x2

You'll be the rythm and I'll be the beat

You'll be the rythm and I'll be the beat

Then I'll be the rythm and you'll be the beat

And love, the shoreline, where you and I meet

Love is the harmony

Desire is the key

Love is a symphony

Come sing some with me
