

M.I.A., Marigold

When times are difficult
We're gonna need a miracle
When things are critical
We're gonna need a miracle
The world's in trouble
Cover it in Marigolds
Cities in rubble
We all need a miracle

Stereo miracle
Keep it gold oracle
Dropping heat
Staying cool
Digital mystical
I'm a radical not typical
Get a grip and let it go
Revolution ain't political
It's more spiritual
It's big like biblical
Write it down in a history book
You should take a picture bro
They don't teach you this in school
Vehicle electrical
Land or nautical
I show up when the duty calls
Everything is beautiful

When times are difficult
We're gonna need a miracle
When things are critical
We're gonna need a miracle
The world's in trouble
Cover it in Marigolds
Cities in rubble
We all need a miracle

Protocol
Prodigal
Every periodical
We need something practical
A real fucking miracle
Planetary particle
A real authentic article
I be so cold I make the arctic cold
All for one and love for all

It's big like biblical
Write it down in a history book
You should take a picture bro
They don't teach you this in school
Vehicle electrical
Land or nautical
I show up when the duty calls
Everything is beautiful
