

Mabel, Come to light

I Hold you lady
I always feel to reach your side
why don't you made it
come tonight
Remember Baby
I always make you feel alive
You know why I'm waiting
come to light
You can catch me
I've been hide
you can finding where I hide
under spaces high
I can tell you what you're looking for
(I will make you feel alive if you wanna come to light)
You know Why I'm ready
now you can reach me with your mind
why don't you made it
come to night
and within me baby
I always make you feel alright
you know it's easy
come to light
