

# Machinae Supremacy, I Know The Reaper

It ain't always merry  
To notice there's a line.  
Life is kinda scary  
When you are left behind.  
All the loved ones lost to you  
Used to be somewhere  
You know you will follow too  
And you don't really care to just go nowhere.

And so you keep them all alive  
(In your head)  
I tell you I know The Reaper.  
No light and no eternal life  
(What I said)  
I tell you I know The Reaper.

Sweetest of all lies  
One of everlasting life.  
No one wants to die  
But we do, so we hide.  
What you fail to realize  
Is there's no need to fear  
You live on in the hearts and minds  
Of those who hold you dear, who are right here.

And so you keep them all alive  
(In your head)  
I tell you I know The Reaper.  
No light and no eternal life  
(What I said)  
I tell you I know The Reaper.

All the others.  
They already know The Reaper.  
All the others.  
They already know The Reaper.

And so you keep yourself alive  
(In your head)  
You don't wanna know The Reaper  
No light and no eternal life  
(What I said)  
I tell you I know The Reaper.
