I am the alpha, I am the omega What? I am the alpha, I am the omega I am the alpha, I am the omega I am the alpha, I am the omega

If you ain't living your life then you're dead
And sleep is its cousin so I shot my bed
Paranoia got me using these meds
Now I'm Smokey as Chris on a Friday like Craig
Retract that statement, I'm stoney as Fred
Evacuate when my homies get mad
You better pray to your God for a blessing
Before they make your world look like Armageddon
Knew I was trouble since I was 11
Ripped up my jeans and I bought me a leather
My friends saw me as a King like Coretta

My dad saw his son as a nuisance, a rebel, and my music sounds like the devil Turn that shit off or get out of my temple

Right after that he'd go back to his Kettle One vodka and drink it all up till he's mental I have no issue, I am official

Let them come at me I practice Jiu Jitsu Only fear two things with three letters dawg That's G-O-D, God and my fucking initials

Doctors called up to the news to report to them what they discovered Said I'm the first of a species that they call a real muthafucka, (Kells)

And I'm sorry if you get a lot of hits from all my followers If you acknowledge us in any other way then positive But you shouldn't be hollering or talking about Superman

When you're living in Metropolis and if you follow astronomy I'm a Taurus
That means I don't give a fuck what you thought of me
I walk into an interview looking like a lobotomy
Flipping my middle finger at everybody who watching us,
Fuck, fuck, fuck that bring the beat back
Kill this instrumental leave the body where the reef at
Nah, fuck that where the keef at sprinkle a little bit on a quarter of my weed sack
Give me a minute I took a hit I'm tryna focus like astigmatism
My competition on my dick, they're like the zip on my denim
They want the heat I light em up like I put cigarettes in 'em
You bitch, whats your religion?
I wanna know what God you're seeing in a couple of seconds
I wanna see the criticism bout my lyricism
When I'm in your face rippin' this rhythm up like canabalism it's Kells

Bitch!

I am the alpha, I am the omega What? I am the alpha, I am the omega I am the alpha, I am the omega I am the alpha, I am the omega

I am the alpha omega, the fuck is you saying?
