Mad Caddies, Destro

I've got a thing about destruction I've got an appetite for pain I wanna watch it all just burn down Cause well this town's so lame Wanna see it all just float away now Wanna watch it all go up in smoke We've gotta feed our new affliction Cause well this town's a joke

I gotta see you, when everything's gone

Watch it fall You watch it fall now You watch it burn down Watch it burn Gonna take this city to the ground Watch it fall You watch it fall now You watch it burn down Watch it burn Gonna take this city to the ground

It's time to talk of revolution Get off your couch and start the fight I like it when everything's fucked up Cause well it feels so right

I wanna see you, when everything's gone

Watch it fall Gonna watch it fall now Gonna watch it burn down Watch it burn Gonna take this city to the ground

Watch it fall Gonna watch it fall now Gonna watch it burn down Watch it burn Gonna take this city to the ground

In your home town

I've got a thing about destruction I've got an appetite for pain I wanna see it all just burn down Cause everything is just the same

Watch it fall Gonna watch it fall now Gonna watch it burn down Watch it burn Gonna take this city to the ground

Watch it fall Gonna watch it burn down Watch it burn Gonna take this city to the ground
