

# Mad Caddies, Pyramid Scheme

Walking through the badlands taking in the scenery  
The beasts are salivating to the fresh scent of the week  
They're moving in with a penetrating grin  
Sliding through your backdoor  
while your babies are asleep  
We're walking blind with wool over our eyes  
Now if we don't think about it will it go away

Because they're taking what they want not what they need  
Hang us out to dry so the wolves can feed  
You can see it in their eyes filled up with greed  
And we are all left sucking at the end of this pyramid scheme

Running through this nightmare but I'm wide awake  
I hear the footsteps in the dark  
and it's more than I can take  
They're rising up from the depths to fill their cup  
Never to the top because it never is enough  
They want it all no matter what the cost is  
If we don't think about it will it go away
