

Mad Sin, Gone Forever

When the dead will walk the earth
then I will not be afraid
cause the last day left behind
that would loved once left and fears

your blood run through my veins
frustration slips a lot of pain
now is she gone forever
miss liberty has been bombed away casualies insane
is she gone forever her coffin is made out of greed...
is she gone forever
now is she gone forever
or must i wait forever

till the dead will walk the earth
