

Madasun, Walking On Water

You could be a two-time loser
Everybody used to use and abuse ya
But maybe you can turn your life around
I can see that you act like you don't care
In a dead end job, goin' nowhere
Don't you know that only you can keep you down

'Cos miracles do happen
If it's feeling wrong you can make it right

It's like walking on water
You can move mountains with some faith
Like walking on water, don't you see
What you can achieve
If you believe it in your heart
You can walk on water

You could be a man in the mansion
And still feel no better than a has been
If there is no-one special in your life
And you can be as broke as a joke
And know inside that you'll always cope
If you're the hero in your children's eyes

'Cos miracles do happen
If it's feeling wrong you can make it right

It's like walking on water
You can move mountains with some faith
Like walking on water, don't you see
What you can achieve
If you believe it in your heart

It's like walking on water
You can move mountains with some faith
Like walking on water, don't you see
What you can achieve
If you believe it in your heart
You can walk on water

Walk on water
Walk on water
Walk on water
Walk on water
Walk on water
Walk on water, yeah
Yeah

It's like walking on water
You can move mountains with some faith
Like walking on water, don't you see
What you can achieve
If you believe it in your heart

It's like walking on water
You can move mountains with some faith
Like walking on water, don't you see
What you can achieve
If you believe it in your heart
You can walk on water
