

Madcap, Downtown

I go down to the city
even when the rain falls down [x4]

I don't care if it's a
boy or girl you're after
I don't care if it's a
record label deal
I don't care if it's a
nuclear reaction
I don't care if it's all
above the new

I go down to the city
even when the rain falls down [x4]

You can take your picket fence and
shove it up your ass
You can take that dream
of old money coming
Cuz I know a place
that's real
maybe not the people
but the way I feel

Downtown! Here we go!
Downtown! Here we go!
I go to the city
Nothing else to do
Forget about my worries
Maybe you should too
Downtown! Here we go!
Downtown! Here we go!

I go down to the city
even when the rain falls down [x4]
