

Madcap, It Won't Die

Get that out of your head
Is what they told me now
They tried to clip my wings
Keep my feet on the ground
But i've got something they can never have
I've got heart, I've got love tonight

[Chorus:]

And it won't die
No matter what they do
It won't die
No matter what they do
It won't die
No matter what they do

Take your phony ideals and get 'em out of my face
Because i do what i want and not what others say
I've got heart, I've got soul tonight

[Chorus]

Get up get out, the said to me
There ain't no sense in chasing dreams
But i've got something they can never have
I've got heart, I've got faith tonight

[Chorus]
