

# Madcap, Searching For Ground

Float a boat across the sea to islands in the sun  
Take a plane across the world in miles you won't find  
Someone who will love you quite as much as me

Too much time talking, you're talking, you're talking again  
Now you see me walking, I'm walking  
So go start looking, but in looking you won't find  
Someone like me who gave up all the time

[Chorus:]  
You will spend the rest of your life  
Searching for ground  
Cause away from me  
Everywhere you walk is caving in now

Take a look around you, around you, around you  
Now you are alone girl, alone girl, along girl  
So go start looking, but in looking you won't find  
Someone like me who gave up all the time

[Chorus]

Time won't heal a thing  
Those wounds you've made run too deep  
One day you're gonna see  
You can wrap them up, but it won't be me

[Chorus]
