

Madeon, Gonna Be Good

You carried me Bettered me
Figured me out
Got nothing else Nothing to write home about
Yeah

I'm coming back to safety Told you I would
Keep running after this
This ought to be good

We're gonna be good
I'm gonna make a world like no one else
And it's gonna be yours
And nobody can take it Nobody can take it Back from you
And it's gonna be good Yeah

And people stare People think
People know best
We're making noise Making love
Making a mess
And I know that we tried and we gave it all we could
Keep running after this This ought to be good

We're gonna be good
I'm gonna make a world to ourselves just ourselves
And it's gonna be yours
And nobody can take it
Nobody can take it
Back from you
