

Madita, Shiver

Awake in your dreams
No time to sleep
Hugging the sweet
The little that breathes
How could I know
That you wouldnt go
Away from this beat
Of my heart so deep
Struggling to feed
Your will to believe
That I couldnt know
How could I know
I couldnt know
That you wouldnt go
Again I shiver
My heart gets bigger
This must be a trigger
That I cannot cope with
How could I know
How could I know
I break up with skills
No time to sleep
Trying just kills
My senses, my will
How could I know
That you wouldnt go
Away from this beat
Of my heart so deep
Struggling to feed
Your will to believe
That I couldnt know
How could I know
I couldnt know
That you wouldnt go
Again I shiver
My heart gets bigger
This must be a trigger
That I cannot cope with
How could I know
That everything
Again I shiver
Bigger
Trigger
That I cannot cope with
How could I know
Everything goes
Out of control
But my babys now at home
But my babys now at home
My babys now at home
