

Magdalena Bay, All You Do

Help me out
I can't take the way my face blurs in a crowd
Drive around
Show up uninvited, conversate too loud

I only drink when I'm drunk
Can't fall asleep on my own
I only wanna have some fun
Let the party never end

I'll send you my favorite songs
Yeah that's neat!
I promise that we could be so complete

All you do
Is good
I live for the moment
I cry when it's over
So hold me like you should

All you do
Is good
I live for the moment
I die when it's over
So hold me like you should

Heard you found
Something like a passion
To keep your feet on the ground
Look around
What if all these people
Were trees growing up through the clouds

Talk about
Anything to keep my mind from checking out
Don't leave now
Stick around and let the party never end

You'll send me your favorite songs
Yeah that's sweet!
I promise that we could be so complete

All you do
Is good
I live for the moment
I cry when it's over
So hold me like you should

All you do
Is good
I live for the moment
I die when it's over
So hold me like you should

Is anybody out there?
You're so... out there
I could be with all these people
And still feel alone
But I'm not scared
Because I'm home

All you do
Is good
I live for the moment

I cry when it's over
So hold me like you should

All you do
Is good
I live for the moment
I die when it's over
So hold me like you should

Everything that I try
Hold me close and I'll feel alive
It's alright
We'll drift a little longer tonight
