

# Magdalena Bay, All You Do

Help me out  
I can't take the way my face blurs in a crowd  
Drive around  
Show up uninvited, conversate too loud

I only drink when I'm drunk  
Can't fall asleep on my own  
I only wanna have some fun  
Let the party never end

I'll send you my favorite songs  
Yeah that's neat!  
I promise that we could be so complete

All you do  
Is good  
I live for the moment  
I cry when it's over  
So hold me like you should

All you do  
Is good  
I live for the moment  
I die when it's over  
So hold me like you should

Heard you found  
Something like a passion  
To keep your feet on the ground  
Look around  
What if all these people  
Were trees growing up through the clouds

Talk about  
Anything to keep my mind from checking out  
Don't leave now  
Stick around and let the party never end

You'll send me your favorite songs  
Yeah that's sweet!  
I promise that we could be so complete

All you do  
Is good  
I live for the moment  
I cry when it's over  
So hold me like you should

All you do  
Is good  
I live for the moment  
I die when it's over  
So hold me like you should

Is anybody out there?  
You're so... out there  
I could be with all these people  
And still feel alone  
But I'm not scared  
Because I'm home

All you do  
Is good  
I live for the moment

I cry when it's over  
So hold me like you should

All you do  
Is good  
I live for the moment  
I die when it's over  
So hold me like you should

Everything that I try  
Hold me close and I'll feel alive  
It's alright  
We'll drift a little longer tonight
