

# Magdalena Bay, Slug Song

I see you from my window  
Don't you mind the road ahead  
You know what you've got to do!

You've already come,  
You've already come this far

So even though the wind blows  
Don't you mind the storm ahead  
You know what you've got to do!

You've already come,  
You've already come this far  
You've already come,  
You've already come this far
