

Magenta, To Die For

Your crimes paid off well, you know what you tried for
Your crimes paid off well, you know what you lied for
Your crimes paid off well, you know what you cried for
Your crimes paid off well, you know what you died for

Your soul was alright, when
You didnt scratch it
It all went quite well, when you attached it
But you couldnt feel, what you were fighting for
You didnt know it all, when they closed the door

(What you tried)
I know enough for sure
(What you lied)
Thats enough coz I know my fate
(What you cried)
I know the one you hate
(What you died)
I know when I fall
(What you tried)
Stay far away from me
(What you lied)
Dont ever talk to me again
(What you cried)
I know its all for the best of man
(What you died)
Hide and run away

Your crimes paid off well, you know what you tried for
Your crimes paid off well, you know what you lied for
Your crimes paid off well, you know what you cried for
And now you know it all, what you died for...

When your life was turning against you
When your life was turning against you

(What you tried)
I know enough for sure
(What you lied)
Thats enough coz I know my fate
(What you cried)
I know the one you hate
(What you died)
I know when I fall
(What you tried)
Stay far away from me
(What you lied)
Dont ever talk to me again
(What you cried)
I know its all for the best of man
(What you died)
Hide and run away

(What you tried)
I know enough for sure
(What you lied)
Thats enough coz I know my fate
(What you cried)
I know the one you hate
(What you died)
I know when I fall
(What you tried)
Stay far away from me
(What you lied)

Dont ever talk to me again
(What you cried)
I know its all for the best of man
(What you died)
Hide and run away

As your life was turning against you
