

# Maggie Reilly, Every Single Heartbeat

Every single heartbeat...

I see you sleeping  
Hungry for every smile on your face  
I feel you in every single heartbeat

I hear you breathing  
Worries are gone and leave no trace  
We're closer with every single heartbeat

There's such a rhythm inside my head  
My soul is dancing, I'm not afraid  
I feel a rush every time you're near  
And in the stillness all I hear

Every single heartbeat...  
Lost in wonder  
How did we find a love like this?  
Together we'll chase away the darkness

Every single heartbeat...  
It's so amazing  
Carried along on waves of bliss  
Lifting our spirits, soaring higher

There's such a rhythm inside my head  
My soul is dancing, I'm not afraid  
I feel a rush every time you're near  
And in the stillness all I hear

Every single heartbeat...

I watch you dreaming  
Follow you to your secret place  
Together with every single heartbeat

I feel the rhythm when you are near  
And in the stillness all I hear

Every single heartbeat...  
Lost in wonder  
How did we find a love like this?  
Together we'll chase away the darkness

Every single heartbeat...  
It's so amazing  
Carried along on waves of bliss  
Lifting our spirits, soaring higher

I feel a rhythm inside my head  
My soul is dancing  
I'm not afraid  
In the stillness you are here

Ooh in my soul of love  
You changed my life  
(Now my heart beats for you)  
So many ways

Every single heartbeat...  
And all I do  
Sending love on its way to you  
I don't get down, I'm never blue  
I know your heart beats for me too

Every single heartbeat...  
And all I do  
Reminds me that you feel it too  
When I'm alone a voice comes through  
Tells me I found love

Every single heartbeat...  
Lost in wonder  
How did we find a love like this?  
Together we'll chase away the darkness

Every single heartbeat...  
It's so amazing  
Carried along on waves of bliss  
Lifting our spirits, soaring higher

Every single heartbeat...  
Lost in wonder  
How did we find a love like this?  
Together we'll chase away the darkness

Every single heartbeat...  
It's so amazing  
Carried along on waves of bliss  
Lifting our spirits, soaring higher
