

Magic Box, For Your Love

Any breath I take I think of all
Those things you did
Today was strange enough
Any time I close my eyes I see
The lovely smile
Shinin' like a star

(Bridge)

Now I realise what I've handled
What I lost too
In callin' the pain
Now I realise what is changin'
What is missin'
I realise only now

(CHORUS)

For your love I will do anythin', do anythin', do anythin' ooo
For your love I will do anythin', do anythin', do anythin' ooo

Now it's time to wake to find
Someone who could
Try to take your place
As I look in for your sensor eyes
In someone else
Try to underdere

(Bridge)

Now I realise what I've handled
What I lost too
In callin' the pain
Now I realise what is changin'
What is missin'
I realise only now

(CHORUS)

For your love I will do anythin', do anythin' do anythin' ooo
For your love I will do anythin', do anythin' do anythin' ooo (x2)
