

Magic Dirt, Nightingale

I'm well and you're safe
Even though it's just a lie
You think you're mad
Anger, is your fad
Just wait 'til you see under my skin
Super cut and super mad
You took all the love I had
Nightingale
To the man who's pale
Nightingale
Watch their behaviour
It only gets better
Well just you wait 'til they fall apart again
Super lost and faraway
I was here for just one day
Nightingale
To the man who's pale
Nightingale
