

# Magic Dirt, Supagloo

You said we'd stay together  
You said no matter whatever  
You said we'd stay together  
And you told me just to remember  
That I stick to you  
Like supagloo  
It doesn't matter you're no professor  
You don't have to try to impress her  
You're in love and it's hard to confess it  
Just give in 'cause it's time to test it  
And he'll stick to you  
Like supagloo  
You suffer from a fever  
And still you know that you can't leave her  
This time it's better than keepin'  
A little book about all your schemin'  
And she'll stick to you  
Like supagloo
