

Magic Dirt, Teenage Vampire

And I care less and less each time
You put your head out on a line
And I care and I care and I care
Less and less each time you put your head
Between your hands and cry that you can't do it this time

I've been fightin' for it
I've been fightin' for it
I've been fightin' for it

I see your wound and I wonder how soon
Before you fly into the night
I wonder I wonder I wonder I wonder
How soon before you get it right

I've been fightin' for it
Just another feelin'
I've been fightin' for it
Just another feelin'
I've been fightin' for it
Just another feelin'
I've been fightin' for it
Just another feelin'

It's all just true that I love you
Prince of snow wolf of volcanoes
Tests me still
It tests me it tests me it tests me it tests me
Still to see if I can sit
While you drink your fill

I've been fightin' for it
Just another feelin'
I've been fightin' for it
Just another feelin'
I've been fightin' for it
Just another feelin'
I've been fightin' for it
Just another feelin'
