

# Magna-Fi, My Heaven

we can get high  
so close that we almost die  
it's easy  
roll your life on a gamble  
burn both ends of the candle  
something telling you  
what i want you to know  
all my fears  
disappear

salvation  
take a pill to forget it all  
then you're small  
but it all fades away  
turns to shades of gray  
you can't ask me to stay  
but i want you to go

take a long hard look  
we're the people that nobody took  
you will always  
always be my heaven  
they say life goes on  
even though the thrill is gone  
you will always  
always be my heaven
