

Magnapop, Skinburns

Hot ropes
high hands
there's broken mirrors
ground into broken sand
that cuts your feet or burns your hands

Rugburns
ashes of where you've been
rugburns
keeping you back from amazing falls

Slowly turn
skinburns (x3)

It's hot
sinuses leave my head
no blame
my head is a scary place
to spend away your time and cleanup
medicine is my friend
and fortunate that you came
stay close
the world is a friendly place
at least I always heard it was

Slowly turn
skinburns (x3)

They say beneath you if it's heavy
hope it's ground
and there's the sky
it sucks you out

Your skin
you know it and where it's been
stay close
the world is a friendly place
at least I always heard it was

Slowly turn
skinburns (x3)
