

# Magnapop, Snake.

Say you will  
Put your hand in my brain  
Call me up  
Wake me up by the second ring  
Like far away  
If you knew you'd know I'm always there  
Because I care  
You can't throw me out  
I won't go  
You can't

It keeps me here  
It keeps me here  
It feels like the same and it never changes

Wearing thin  
Slip through cracks  
Trying to keep in  
And walk away  
Where the room defines the mood to play  
Come again  
This time won't be like the last time  
If you stay the same  
Through the years the light your look and looks have changed

It keeps me here  
It keeps me here  
It feels like the same and it never changes  
It keeps me...
