

# Magnapop, Spill It

I tried making coffee  
I would spill it  
Raise my head to look around  
In the morning  
Trucks were beeping  
People screamed so loud  
I couldn't sleep  
And what they'd say  
They'd say to me  
That I would spill it  
And I would spill it  
And I would spill it  
And I would spill it

When the wind blew  
I heard screaming  
People screamed so loud  
I couldn't sleep  
And I would spill it  
And I would spill it

I tried making coffee  
I would spill it  
Raise my head and look around  
In the morning  
Trucks were beeping  
People screamed so loud  
I couldn't sleep  
And words they said  
They'd say to me  
That even I will die  
So what's the use  
And I would spill it  
And I would spill it  
And I would spill

When the wind blew I heard screaming  
People sing so loud I couldn't sleep  
And I would spill it  
And I would spill it
