

# Magnet, Be With You

I'm so excited, I just can't sleep  
I'm so delighted we should finally meet  
I've always had a feeling you would show  
And leave me here in your afterglow

Just so I can be with you  
And I'll know how it feels for me  
To live like you do  
And to die like you too  
I wanna be with you  
So I'll know how it feels for me  
To live like you do  
Darling, please let me be with you  
Please let me be with you

This is not the time or place for patience  
Cause this can not be stalled or stoped(?)  
Interplanet focus of the dragon  
feel my senses come alive  
like anybody, i'm a virgin, on my way  
TO BE WITH YOU  
And to know how it feels for me  
To live like you do  
and to die like you too  
yeah I wanna be with you  
SO I'll know how it feels for me  
To live like you do  
So please, let me be with you  
Yeah, please let me be with you  
PLEASE, let me be with you
