

# Magnet, The Day We Left Town

As the morning sun  
Seeps in through a crack in the blinds  
We open up our eyes  
Let's get off this queen-sized bed  
Where far too many tears have been shed  
And dreams were left for dead  
It's such a glorious day  
So come what may  
You and I are off to see the world

We'll put on our best clothes  
Bring only what we need  
Douse the walls with kerosene  
Drop a match from the mezzanine

So get into the car  
We'll watch it from afar  
Ass the flames kiss the sky  
There's only you and I  
Let it burn to the ground  
'Cause we're not hanging 'round  
It's the day you and I are leaving town

Let it burn  
Let it burn  
'Cause today you and I are leaving town

You and I are leaving town  
It's the day we're leaving town  
It's the day we're leaving it all behind  
It's the day we're leaving town  
It's the day we're leaving it all behind  
You and I
