

# Magnum, Lonely Night

I'm looking for someone in this old crazy world tonight  
I can't take this heartbreak in this old crazy world tonight  
I'm feeling so empty in this old lonely world tonight  
I'm restless, defenceless in this unholy world tonight

Oh, I never learn

Oh, lonely night - disappear  
Oh, lonely night - don't you come round here  
Oh, lonely night - lonely, lonely night

I'm waiting for something to put these foolish things to right  
Protected, accepted, I need it now, I need it right  
I'm feeling so empty in this old lonely world tonight  
I'm restless, defenceless in this unholy world tonight

For love we burn, we never learn, we never learn

Oh, lonely night - disappear from my door  
Oh, lonely night - don't you come round here no more  
Oh, lonely night - disappear from my door  
Oh, lonely night - don't you come round here no more
