

Magnus Carlsson, It's Just Another New Year's Eve

Dont look so sad
Its not so bad you know
Its just another night
Thats all it is
Its not the first
Its not the worst you know
Weve come through all the rest
Well get through this
Weve made mistakes
But weve made good friends too
Remember all the nights we spent with them
And all our plans
Who says they cant come true
Tonights another chance to start again
Its just another New Years Eve
Another night like all the rest
Just another New Years Eve
Lets make it the best
Its just another New Years Eve
Just another Auld Lang Syne
But when were through this New Year
Youll see, will be
Just fine
Were not alone, weve got the world you know
And it wont let us down, just wait and see
And well grow old, but think how wise well grow
Theres more you know, its only New Years Eve
Its just another New Years Eve
Another night like all the rest
Just another New Years Eve
Lets make it the best
Its just another New Years Eve
Just another Auld Lang Syne
But when were through this New Year
Youll see, will be
Just fine
