

Mai Tai, History

Refrain:

Our love is history, I'm gonna burn the letters you were sending me.

Our love is history, I'm gonna burn the letters you were sending me.

Now listen, people, to what I have to say:

I really love him but he took my love away - you don't say.

Refrain

When you're gonna fall in love, there's nothing you can do about it.

When you're gonna fall in love, don't you beat around the bush.

When you're gonna fall in love, now don't you try to deny it.

When you're gonna fall in love, better let it get to you.

Our love is history - oh yeah!

So now it's over, he's got a heart made out of stone - a cold stone.

I've learned my lesson, the day I found myself alone -

why did you do it?

Refrain

Burn'em off, burn 'em off, burn, burn, burn'em off.

Refrain

When it got to lovin' you were never there,

all that I could do was dream.

When I need some huggin' you never ever cared.

Why did you have to be that mean?

Gonna burn your letters, gonna burn your letters,

I'm gonna burn your letters you were sending me.

Our love is history, I'm gonna burn the letters you were sending me-

gonna burn 'em off, gonna burn 'em off,

gonna burn, burn, burn, burn, burn 'em off.

Refrain
