

Majandra Delfino, Behavior

You're like an angel with the sweetest smile
But when you use it you're one evil child
Oh oh, that's what brings me back again

We get along but only half the time
The other half you ain't no friend of mine
No oh, that's what brings me back again

I love you on your best behavior
I love you more when you are doing something wrong
But that's what wrong with me

You said you liked it yesterday
And now you're telling me I can't stay
It's all your crazy messed up ways
That bring me back
That bring me back
That bring me back
You bring me back
