

MaJLo, Lights (ft. Ralph Kaminski)

Will you see me in the lights
Standing really, really bright
If I could fly into their hearts,
Will I see you standing proud?

Someone said it takes time
So we just keep on tryin'
Someone said we're not good enough
Some people will never understand

Will you give me one more chance,
Someone hit me again
I've heard your shit is everywhere,
But, will I ever do my plan?

Someone said it takes time
So we just keep on tryin'
Someone said we're not good enough
Some people will never understand
Some people will never understand
Some people will never understand

We fight, fight, fight
To a fly, fly, fly
We smile, smile, smile
To the cry, cry, cry
