

Malese Jow, Left Waiting

Countin' down
The seconds till your gone
I'm runnin' out
Of reasons how to make you stay
Don't walk away
I'm tryin' to be
The one who understands
I can't pretend
To think that you were right, you're wrong
And I am taught
Now I'm left waiting
Fall behind
Something's changing
And what's tonight
In this space I close my eyes
I never wanna leave your side
It's killin' me to say goodbye
Don't let go
I hear your voice
Playin' through my head
I think about
Every word you said to me
I can't speak
I can't help
Feeling insecure
You say its love
The time is now I'm doubting you

Am I losing you
Now I'm left waiting
Fall behind
Something's changing
And what's tonight
In this space I close my eyes
I never wanna leave your side
It's killin' me to say goodbye
I look in your eyes
You whisper my name
Ohhh
Don't tell me the time
I know it's too late
i feel your hand
You touch my face
Save me baby
Please don't walk away
Now I'm left waiting
Fall behind
Something's changing
And whats tonight
In this space I close my eyes
I never wanna leave your side
It's killin' me to say goodbye
Don't let go
